

The design for desktop and tablet will be the same except for some spacing differences on both sides of the content

The plus button will add extra text fields, these fields will be added under the original and above the buttons.

The minus button will get rid of text fields but should not be able to get rid of the original text field.

A Web Page

https://

Q

Unum

Calculate

Number list	Minimum	Maximum	Average

The question mark will offer a brief explanation about how the page works

The table will only appear when calculate button is pressed for the first time.
